

FRESHSTART™ Trip Report

"Providing The Opportunity For A Fresh Start, For Every Heart, In Every Nation!"

Fresh Start East Asia • September 28 - October 17, 2011

The Fresh Start East Asia trip was incredibly blessed and full of wonder! Check out what some of the leaders had to say about the FS Seminars during our four-city journey:

"This process is so simple, clear and focused and yet it is profound; and your Fresh Start team communicates with such clarity and harmony; you're like one person!"

At each seminar, we each shared our Fresh Start stories of how we had become free from the effects of OFFENSE, HURT & LOSS through the power of forgiveness. Our sessions were very interactive, using drama, artwork, props and more.

We invited participants to enter a pathway to intimacy with God through the process of forgiveness

Many tears were shed. There was much joy and laughter, praise and thanksgiving, and a deep desire for more! What a sacred trust and privilege to experience such favor with those from a culture that is not known for being "free to be known."

Divine Appointments...

"Unscheduled opportunities" are always exciting! There were two incredible examples involving key leaders, both in the same city.... One of the leaders had been seeking God on the problem of a lack of unity among his team of fellow leaders. The other leader was weary, and deeply disheartened by criticism and lack of understanding and appreciation despite all her efforts to serve and bless. Our time with both leaders was very significant and fruitful. Amazing!

In Hong Kong, our first full day actually began with a Divine Appointment in the cafeteria with two men from Australia, who were at the retreat center for another conference. After a great conversation, we gave each of them a Fresh Start processing booklet. A short time later, one of the men sought us out. He came to our living unit with his booklet already filled out, wanting to talk more. The Holy Spirit was at work for sure!

M and L (our FS East Asia Champions) have been "plowing and tending the HK field" wonderfully! The soil of people's hearts was so ready and receptive right from the start!

The Fresh Start Seminar in Hong Kong was very fruitful. It didn't take long before leader participants were actively discussing a variety of ways they can implement Fresh Start — such as in the marketplace, youth ministry, the church, and in leadership training. It was so encouraging!

There's Always MORE! Leaders are also emerging in the other three cities of our Fresh Start journey. M & L are in a great position for the further establishment of a Fresh Start beachhead in Hong Kong and beyond!

Fresh Start East Asia: MISSION ACCOMPLISHED!
